Funds Raised from this year's cricket breakfast will go towards projects such as:

IGA Mind, Body & Heart School Breakfast Program

Make a Difference WA Foundation has partnered with IGA Australia to introduce a new innovative program for schools that will see children fed breakfast, given a warm jacket in the cold winter months where required and have their social/emotional well-being looked after through The Seedlings Program which is a set of workshops conducted by Di Wilcox that will build resilience and confidence in children.

Zonta House Womens Refuge - Positive Pathways Program

We are delighted to give our support to Zonta House who provide support services to women who have experienced family and domestic violence, homelessness and other crises. Providing refuge and transitional accommodation, holistic support and education, this program assists ALL women to lead safe, independent and fulfilling lives. This preventative program is free and available to the public.

This is the third year that Di Wilcox has delivered a number of Parenting Workshops in support of Zonta House. These workshops have been a great success in giving deserving women a helping hand towards a better quality of life.
